Genl. I beg to again trouble you to present the enclosed paper to the Comptroller and get ^{him} to issue Richard Brown's Pension Certificate and then get ^{him} to issue the Pension Bonds due said Brown, and keep them in your charge subject to my order. See power of attorney &c. The Chief Clerk of the State Department writes me that all the papers are right on file and names the enclosed to be sent up. It is with reluctance that I trouble you but hope to be able to request the favour.

I am personally interested in the matter.

Crops very good all places. I suppose of course Moody and Dorn have returned with Bees in their Bonnets. No money, as many of us well guessed. The people here are anxious for the settlement of the International bond question. Thinks the location of Judge Ferris not ominous for the good of the road - we shall see
